

Listen to this website with BrowseAloud Plus

Whether you are using a Smartphone, Tablet, PC or Mac, BrowseAloud Plus will provide the speech and reading support tools you require for free.

What is BrowseAloud Plus?

BrowseAloud Plus reads website content out loud using the most natural and engaging voice to transform your online reading experience. New features include: Translator, Simplifier, Screen Masking for Touch Screens and the ability to personalize the settings to suit individual needs and preferences.

Other features include:

- Dual-Colour Highlighting
- Text Magnification
- Translator
- MP3 Maker
- Screen Masking
- Pronunciation Modifier
- Secure Site Reading
- PDF Reading
- International Languages

More than 7,000 websites use BrowseAloud, so once you have it on your device you can listen to all of these websites too. For more information, please visit www.browsealoud.com

Who does BrowseAloud Plus help?

BrowseAloud Plus helps website visitors who *require* online reading support and those who simply *prefer* to listen to information instead of reading it. Those with print disabilities, such as dyslexia or mild visual impairments, and those with English as a second language find BrowseAloud Plus particularly useful.

How do I get BrowseAloud Plus?

Click on the BrowseAloud Panel that appears on the **side panel** of this website to launch the BrowseAloud Plus toolbar then simply click any text to hear it read aloud.
